CHOOSE **ONE** OR **TWO** BOXES

☐ I choose _____; Relationship _____
(phone number - - and/or email_____) as my primary health care agent to speak for me in making health care decisions if I become unable to speak for myself.

☐ I choose _____; Relationship _____
(phone number - - and/or email_____) as my secondary health care agent who can speak for me in making health care decisions if I become unable to speak for myself and my primary health care agent is unable to serve.

Step 2: Provide guidance to my health care agent & doctors.

In working together to make treatment decisions and plans for my care, please consider my general preferences described below:

CHOOSE **ONE** BOX ONLY

☐ I am not sure at this time which statements below I most agree with. I trust my health care agent to do what is best for me.

☐ I want to continue living even if my quality of life seems low to others and I am unable to communicate with people. In general, I would accept support of my breathing, heart, and kidney function by machines that require me to be in a hospital or special care unit.

☐ Life is precious, but I understand that we all die sometime. I want to live as long as I can interact with others and can enjoy some quality of life. I would accept intensive treatments only if I had a reasonable chance of getting better. I would refuse long-term support by intensive medications or machines if my quality of life was poor and I was not able to communicate with people.

☐ It is most important to me to avoid suffering. I do not want extraordinary medical treatments, such as breathing machines or cardiopulmonary resuscitation (CPR). If my natural body functions fail, I would refuse treatments and choose to die naturally.

Is there anything your doctors should know about you to provide you with the best care possible?
